High Capacity, Multi-Deck, Rear Load Merchandiser

HUSSMANN®
Impact Excel

C6X-LRE High Capacity, Multi-Deck Rear Load Convertible

Available in 4', 6', 8' & 12' lengths.

Note: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% RH.

Note: We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions or replacements for equipment previously sold or shipped.

Superior Merchandising

The C6X-LRE combines merchandising impact and capacity with the convenience of rear-loading. It is designed to display dairy and deli products. Full view glass ends and stainless steel reflective ends are optionally available to help you create an endless product view. Shelves can be positioned at any height for greater merchandising flexibility. Optional lighted canopy signs also available.

Rear Sliding Doors for Easy Stocking

The C6X-LRE is designed for easy rear loading from a cooler adjacent to the back of the case. Product is stocked quickly and stays cold. Overlapping, sliding doors in each 4' section provide excellent access to the full merchandising area.

Lower Energy Costs

Standard high efficiency coils help reduce your energy bills. Optional integrated night curtains will further reduce energy costs.

Superior Shelf Life

With the C6X-LRE, dairy and deli products stay fresh. Modular coils with off-time defrost help keep refrigerated temperatures extremely stable, reducing thermal shock.

Lower Labor Costs

Labor saving features include easier access for cleaning under the case, easy-to-clean bathtub bottom (no coil in the bottom of the case), adjustable feet and simplified raceway access for quicker installation, and more.

Superior Reliability

Our 5 year modular coil warranty is the best available. Pre-set expansion valves are designed to hold optimal temperatures throughout the life of the case.
