Available in 8' and 12' lengths.

### SSGT

Note: Drawings not intended for store layouts. Please use Hussmann's Merchandiser Data Book to get precise dimensions for all store layout purposes.

### SSGT - 8' and 12' Plan Views

### Tilt Up Straight Glass for Seafood

Straight front glass tilts up for easy stocking and cleaning. 10" stainless flat non-movable top is standard. This flat top allows room for seafood sauces, seasonings and other related items. A large 20" rear door opening has an increased angle to improve reach and ergonomics.

### Advanced Impact Design

The SSGT is a true "Impact" merchandiser, incorporating the best features and benefits of the Impact product line. These include advanced modular coils, superior energy efficiency, modular case design, durable bumper, factory pre-adjusted expansion valves, and seamless polystyrene "bathtub" bottoms for quick, easy cleaning.

### Reduced Refrigerant, Fewer Leaks

Patented Impact modular coils require 50% to 60% less refrigerant. Also, all return bend solder joints have been eliminated, which greatly reduces the possibility of refrigerant leaks.

### Options

Options include scale stands, thermometers, wrapping boards, non-glare glass and stainless steel ice pans.

### NSF Certified

The SSGT has been NSF certified to ANSI/NSF standard 7.

NOTE: These merchandisers are designed for use in stores when temperature and humidity do not exceed 75°F and 55% R.H.

NOTE: (We reserve the right to change or revise specifications and product design in connection with any feature of our products. Such changes do not entitle the buyer to corresponding changes, improvements, additions, or replacements for equipment previously sold or shipped.)
