Technical Bulletin: 1108_845

SM/SV Series Product Coolers

Photo on front cover shown with optional Long Throw Air Boosters

Standard Features

SM SERIES –

Ideal for Warehouse Coolers or Freezers to Fit a Wide Range of Capacities

- Ruggedly constructed fan cabinet hung by hanger rods from the ceiling.
- Efficient air draw-thru design with 30" diameter aluminum fans for uniform air distribution; air throw is approximately 50 to 60 feet.
- High efficiency three phase, 850 RPM fan motors are permanently lubricated.
- Air defrost for medium temperature rooms.
- Electric or hot gas defrost for medium and low temperature rooms.
- Adjustable defrost termination and fan delay thermostat installed with electric defrost.
- By-pass tee installed with hot gas defrost. Check valve provided shipped loose.
- Mill galvanized drain pan and fan cabinet.
- Drain pan is insulated for electric or hot gas defrost applications.
- Drain pan and fan cabinet end panels are hinged for easy access and cleaning.
- 4, 5, 6, and 7 fins per inch spacing.
- Coated, corrosion-resistant wire fan guards.
- Compartmental fan sections.
- 3-phase, ball bearing motors 230/460V or 575V.
- Suction Schrader valve for easy suction pressure/temperature measurement.

Optional Features

- Stainless steel housing and drain pan.
- Brine and heat reclaim circuiting.
- Insulated drain pan cover for air defrost models.
- Electro-Fin/Heresite coated coil for air defrost models.
- Painted housing.

Optional Accessories

- Long throw air boosters (air throw approx. 100 feet).
- Room thermostat.
- Thermostatic expansion valve.
- Defrost time clock.
- Liquid line solenoid valve.
- Suction liquid heat exchanger.
- Remote located electrical control panel.

SV SERIES –

Designed to Deliver Low Temperature Air at Extra-High Velocity in Freezers

- Ruggedly constructed fan cabinet hung by hanger rods from the ceiling.
- Wide capacity range.
- Efficient air draw-thru design with 30" diameter aluminum fans for uniform air distribution; air throw is approximately 60 to 80 feet.
- High efficiency three phase, 1140 RPM fan motors are permanently lubricated.
- Electric or hot gas defrost for low temperature rooms.
- Adjustable defrost termination and fan delay thermostat installed.
- Mill galvanized drain pan and fan cabinet.
- Insulated drain pan.
- Drain pan and fan cabinet end panels are hinged for easy access and cleaning.
- 4, 5, and 6 fins per inch spacing.
- Coated, corrosion-resistant wire fan guards.
- Compartmental fan sections.
- 3-phase, ball bearing motors 230/460V or 575V.
- Suction Schrader valve for easy suction pressure/temperature measurement.

Optional Features

- Stainless steel housing and drain pan.
- Electro-Fin/Heresite coated coil for hot gas defrost models.
- Painted housing.

Optional Accessories

- Long throw air boosters (air throw approx. 120 feet).
- Room thermostat.
- Thermostatic expansion valve.
- Defrost time clock.
- Liquid line solenoid valve.
- Suction liquid heat exchanger.
- Remote located electrical control panel.
- Copper tins.

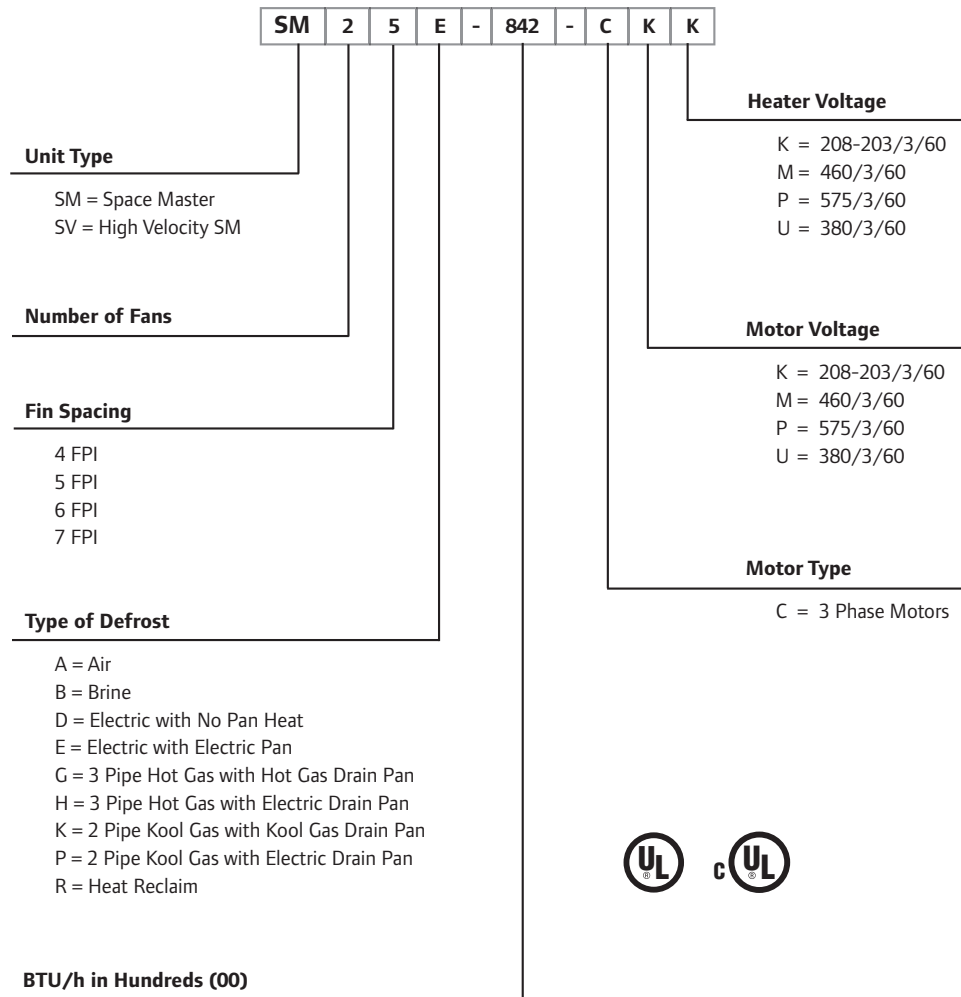

SM/SV Series Product Coolers

Ordering Information

Specify When Ordering All Models

- Complete model number.
- Refrigerant R22, R404A, or R507.
- Room temperature.
- Saturated suction temperature.
- Liquid refrigerant temperature.
- 230/3, 460/3 or 575/3 motor and heater voltage.
- Optional features.
- Optional accessories.

Capacity Ratings are based on sensible heat removal with a TEV fed, medium frosted coil when:

- Fan motor heat is not included in ratings - add 4000 BTUH per fan to room load for SM units, or 6600 BTUH per fan to room load for SV units.

- Derate 12% for 50 Hertz (0.88 multiplier) or increase TD to compensate for lower fan RPM.

Capacity Ratings are based on sensible heat removal with a TEV fed, medium frosted coil when:

- Fan motor heat is not included in ratings - add 4000 BTUH per fan to room load for SM units, or 6600 BTUH per fan to room load for SV units.
- Derate 12% for 50 Hertz (0.88 multiplier) or increase TD to compensate for lower fan RPM.

Insulated drain pan standard on EDL models. Four fan SM/SV for low temperature requires two TEVs.

NOTE: *Available Types of Defrost: (P) KGE - 2 Pipe Kool Gas with Electric Pan, (K) KGG - 2 Pipe Kool Gas with Kool Gas Pan, (H) HGE - 3 Pipe Hot Gas with Electric Pan, (G) HGG - 3 Pipe Hot Gas with Hot Gas Pan.

NOTE: 4 Fans SM/SV for low temp requires 2 TEVs.

Providing equipment and services to manage controlled-temperature environments for food and other temperature sensitive products, our Climate Control Technologies sector encompasses both transport and stationary refrigeration solutions. Our product brands include Thermo King®, world leader in transport temperature control systems, and Hussmann®, a manufacturer of refrigeration and food merchandising equipment.
